

BRIEF SUMMARY

Enthusiastic and detail-oriented B.Tech 4th year Computer Science student with a strong foundation in C++, Data Structures & Algorithms, JavaScript, Python, and SQL. Skilled in Full Stack Development, Artificial Intelligence (AI), AI Agents, Large Language Models (LLMs), and Prompt Engineering. Certified in Alteryx with a passion for data-driven problem solving and innovative software solutions. Highly motivated, quick learner, and adaptable, with proven ability to analyze complex challenges, design scalable applications, and collaborate effectively in team environments. Eager to contribute technical expertise and creativity to dynamic software engineering and AI projects.

KEY EXPERTISE

postman Agile JavaScript React.js Node.js Express.js Python Object-Oriented Programming
Software Testing Agentic Ai LLMs

EDUCATION

Medicaps University

2022 - 2026

B.Tech. - Computer Science & Engineering | CGPA: 6.92 / 10

Itma vidya Niketan, Indore

2022

12th | CBSE | Percentage: 73 / 100

Itma Vidya Niketan, Indore

2020

10th | CBSE | Percentage: 65 / 100

INTERNSHIPS

alteryx | IT / Computers - Software

09 Jun, 2025 - 04 Jul, 2025

Key Skills: Workflow Design & Automation Data Validation Data Analysis

As an Alteryx Intern, I developed and optimized workflows to solve business problems by implementing tools for data manipulation, cleaning, and transformation. I focused on improving data accuracy and efficiency through workflow automation while strengthening my skills in problem-solving, data processing, and analytical thinking.

PROJECTS

Activity Suggestion App

Team Size: 1**Key Skills:** rest api ai agents ReactJS**Project Link:** <https://github.com/SagarHedav/Bored>

I'm Bored – Activity Suggestion App : A fun and interactive web app powered by the Bored API. Whenever you're bored, this app suggests random activities or lets you filter activities by type and number of participants.

Features :Random Activity Generator – get a surprise activity every time you visit. Filter Options – choose activity type (e.g., Education, Recreational, Social, Music, DIY, etc.) and number of participants. | Dynamic Results – activities are fetched live from the Bored API. Error Handling – user-friendly message when no matching activities are found. Responsive UI – clean form, activity cards, and error display. Server-side Rendering – built using EJS templates.

HierAi

Key Skills: React.js vite tailwindCss DOM Axios Restful APIs Node.js Express.js MongoDB**Project Link:** <https://github.com/SagarHedav/HierAi>

HierAI – Professional Networking Platform:

Built a modern LinkedIn-inspired platform connecting students and recruiters with an intuitive interface. Implemented features for profile management, job search, networking, social feeds, and notifications. For recruiters, developed tools for job posting, candidate discovery, company profiles, and AI-powered application sorting, where resumes and cover letters are tagged with an AI score to streamline hiring. Designed for a scalable, intelligent, and user-friendly experience bridging job seekers, employers, and recruiters.

Integrated real-time chat and recommendation algorithms to enhance engagement and networking efficiency. Focused on data privacy, performance optimization, and a clean, responsive UI for seamless cross-platform accessibility.

Face Recognition Using InsightFace

Key Skills: Python OpenCV InsightFace NumPy AI Agents

Project Link: <https://github.com/SagarHedav/Face-recognition-with-insight-Face>

A Python-based real-time face recognition system that uses computer vision to detect and identify faces through your webcam. The system can recognize known faces and label unknown faces in real-time with a clean visual interface. Features Include , Real-time face detection and recognition | Visual feedback with bounding boxes around detected faces | Live labeling of recognized individuals | Clean text overlay showing recognition results | Unknown face detection and labeling | Easy-to-use interface with webcam integration

ASSESSMENTS / CERTIFICATIONS

The Complete Full Stack Web Development BootCamp

Completed an intensive full-stack web development bootcamp emphasizing practical project-based learning, problem-solving, and software engineering best practices. Gained experience in designing scalable web applications, implementing end-to-end functionality, and improving code quality through hands-on exercises and real-world projects. Strengthened skills in collaboration, debugging, and full software development lifecycle understanding.

PERSONAL DETAILS

Current Address: Scheme no 78 , indore , madhya pradesh,
Indore, Madhya Pradesh, India - 452011

Date of Birth: 09 May, 2004
Known Languages: English and Hindi
Phone Numbers: +91-9301522382, +91-6263333085

Emails: en22cs301837@medicaps.ac.in , sagarhedav@gmail.com
